### What are foundational principles?

This document outlines four key foundational principles -- *integrity, accountability, respect, and leadership & collaboration* -- to guide the conduct of local government elected officials in B.C.

The foundational principles provide a basis for how local government elected officials fulfill their roles and responsibilities, including in their relationships with each other, with local government staff and with the public.

These principles are intended to guide both the conduct of individual elected officials and the collective behaviour of the local government council or board. The principles are also meant to guide local governments in fulfilling their corporate functions and responsibilities to their communities.

Responsible conduct at all of these levels is key to furthering a local government's ability to provide good governance to its community.
